Okay because people are awful and we can't even take a day off it comes to my attention that some folks are using my injury to argue that people should stop protesting

Fuck that, stay in the streets double for me, cause I can't. It was police who shot me, not protesters.

Welp, I'll need at least one more major surgery but the doctors are pleased so far so that's good

I guess we're gonna find out how much it costs to go blind in America

7/We ran up the street and to the left. You can hear me in the video shouting "We're reporters!" And "Where do we go?" Police didn't respond except to pursue us and continue firing.
